

## *Bobcat Corporation - Wheeling Illinois*

BOBCAT CORPORATION-Wheeling Illinois. In his 1957 patent application Earl Lossau assigned his invention to the Bobcat Corp. "My invention relates to new and useful improvements in a frame structure for a GOLF BAG MOTOR SCOTER. The object is for a novel arrangement for positioning and supporting the golf bag and its contents upon the framework of the scooter within an area which will in no way interfere with the operator mounting and dismounting the golf scooter. The men's model had a kick stand and the ladies came in pink and blue with two extra wheels at the rear which resemble training wheels. The Bobcat had a 4 horse Kohler K91S engine with a huge rear sprocket and chain drive which allowed it to effortlessly climb the steepest hills. Bobcat golf cars were produced from 1957 through 1962.
